SABOT MISSION STATEMENT

(Pronounced SAY-BO)

“Supporting the Combat Veteran Community by Inspiring Life-Long Connections, Assisting with Holistic Treatments, and Creating Awareness of the Challenges Veterans Face in Our Society.”

Sabot encompasses three divisions; Sabot Foundation, Sabot Racing, and Sabot Group. As a Charitable Trust combined with a full-time off-road professional race team and a lifestyle company focused on food and car culture, we are able to successfully achieve our goals to support combat veterans' transition and adjustment into productive civilian life by providing meaningful experiences and training programs, empowering them to believe in themselves, contributing various forms of aid, and helping them find holistic solutions to their health needs.

“With malice toward none, with charity for all...let us strive on to finish the work we are in, to bind up the nation’s wounds, to care for him who shall have borne the battle and for his widow and his orphan, to do all which may achieve and cherish a just and lasting peace...”

President Abraham Lincoln, 1865
2nd Inauguration Speech

LETTER FROM THE FOUNDERS

At the turning of the Civil War, President Lincoln recognized the duty to care for those who have borne the battle. For all who fought, and all men and women who still fight for freedom, the needs are clear and present. Sabot Foundation was born of the passion to deliver a duty of care to our veterans that embodies Lincoln's words. We strive to support wounded or struggling veterans in any way that we can; the needs are great and our commitment equals our passion.

In this, our second year of serving veterans, the foundation continues to mature our strategic goals, our core business functions, and our delivery of direct support to veterans and those who served in a theater of combat. We do this through the active and generous support of our founders, donors, volunteers, and our team.

Strategic Goals

Our current strategic goals include identifying veterans who need support (the kind of support that will improve their lives), providing experiences and networking that help veterans reintegrate into a normalized life, and identifying and obtaining sustainable financial resources to make these goals possible. Since we have discovered that combat veterans tend to prefer treatments/immersion within natural environments and natural healing as opposed to treatments involving the use of opioids, pills and like-type substances - our focus will expand to develop a long-term strategy that involves medical professionals who can assist veterans with: alternative programs; nature-based treatments in order to provide a time-out from everyday stressors; a reduction in PTSD symptoms; and a renewed sense of spiritual awareness which has made a huge difference for most veterans we have encountered. We have extended our involvement from assisting homeless veterans to financially assisting veterans on a limited basis in specific areas of need; to enhance their lives and provide them a nurturing push to help them transition as well as provide relief from long term injuries.

Core Business Functions

We have invested time, talent and funding to stabilize and grow our core business functions. These range from establishing and growing a trustee managed non-profit 501(c)(3), to delivering the systems and financial planning to ensure the sustainability of the organization for years to come. Elements of our work in 2018 included establishing processes to determine who and how we can effectively help, managing the logistics and expenditures of the events and activities, expanding our health programs, holistic platforms, education, and legal assistance while promoting alternative methods to relieve the heavy use of pills and/or opioids. These elements encompass our core functions.

Service Delivery

We plan our veteran team building and social activities with an open mind to ensure we deliver what actually moves the dial for veterans as we work across a range of projects. In 2018 we accomplished this through: service delivery to over 175 veterans; instituting social impact experiences and programs; creating exciting environments and opportunities to participate in adventures involving our professional off-road racing team; delivering outdoor events; and, most importantly, creating an atmosphere of camaraderie.

Looking Back

2018 was truly a year of firsts for Sabot Foundation:

- The Foundation was a major sponsor for the 30th Anniversary California Vietnam Veterans Memorial and the 100th Anniversary of the end of WW1.
- On Memorial Day we honored over 35 veterans for a day at the Commemorative Air Force Wing; veterans were flown in actual WW2 vintage fighter planes and Bombers by Navy and Air Force Pilots, for a unique experience over the Pacific Ocean.

- Contributed to the White Heart Foundation in support of USN HMC Holly Katke at the Naval Base at Point Mugu to provide special rehabilitation equipment and help with transportation.
- Sponsored two certified medical training programs in Las Vegas, NV & Youngstown, OH for interested veterans.
- Spent quality time with veterans in Ventura, CA en-route to the 2018 Invictus Games in Australia.
- Visited General Raymond Thomas the Commander of USSOCOM and members of DOD at MacDill Air Force Base for a day of meetings surrounding the foundation and strategy talks involving the June 2019 DOD Warrior Games held in Tampa, FL.
- In conjunction with Brothers in Arms Foundation, contributed to financial support for a press tour in Washington DC to increase the publicity of the feature documentary about Major James Capers Jr (USMC RET.), The Legend of Team Broadminded, Produced and Directed by Ashley Cusato. Capers was one of the Marine Corps first African American Special Operators, First African American Officer nominated for the Medal of Honor. He received the Silver Star, two Bronze Stars, Purple Heart with cluster and was the face of the Marine Corps recruiting in the 70's and 80's.
- Sabot Foundation donated \$10,000 to the Special Operations Charity Network who supports organizations such as SEAL Kids who conduct academic testing, tutoring, therapy, advocacy, and enrichment to foster the success and well-being of the children of Naval Special Warfare members.
- Contributed an additional \$30,000 in cash donations to several other foundations.
- Sponsored several events involving fishing with a Pro-Bass Group at Lake Folsom.
- Identified and vetted a Neurometabolic Rehabilitation Program created by The Arizona Chiropractic Neurology Center as a way to assist veterans with neurological injuries such as TBI, PTSD, and CTE. As of this date, we are sponsoring two veterans as participants in their intensive treatment program.

We March Forward

No grass will grow under our busy feet as we expand and streamline our vision in 2019. We aim to serve veterans with:

- We believe in, and have fully witnessed, the turnaround that veterans experience through physical activity and medical support focusing on their personal and psychological well-being. With this in mind, we will document and share their stories to encourage more veteran participation.
- Currently planning with the City of Malibu, CA, the Mayor and a key member of the City Council, an aquatic therapy event this year with aims to build strength, promote balance, and offer relief from stress and pain.
- Complimentary medical, therapy and chiropractic professionals through a network of free-to-veterans service delivery. This will be achieved in conjunction with One Life One Vet, an organization dedicated to connecting veterans to willing 'no-cost' service providers by implementing a platform of volunteer medical and alternative health professionals to donate their time to their local veterans in various service areas: chiropractic treatments for working with PTSD, Traumatic Brain Injury and Chronic Traumatic Encephalopathy and other related injuries utilizing Low Level Laser Therapy (LLLT); massage therapy and acupuncture; creative arts therapies; other body work; supplementation, and other modalities to assist veterans to healthier mobility and mental health management.

Sabot Foundation exists to not only deliver at the front lines of need, but we also inspire others to be involved in this mission to help our veterans' transition back into the civilian world after serving in combat environments. We owe it to them. The United States of America recruits all-volunteer armed forces. Simply relying on the government to serve every need goes against the principles of the armed services – to serve and protect the people of the United States. We each have a responsibility to do our part, veteran or civilian. Smaller organizations such as ours can be the vital bridge to serve those who have borne the battle.

ABOUT SABOT

Founded by Hammond Meredith and Jon Krashna, Sabot Foundation is a 501(c)(3) Charitable Trust created with one goal in mind: to support combat veterans and their transition to civilian life. The trauma that PTSD, CTE, TBI and other conditions imposed on veterans can often only be understood by those who have experienced it; the harrowing days and multiple deployments in support of operations in Afghanistan, Iraq, and Vietnam. Sabot reaches out to those who require assistance and provide opportunities to improve their quality of life in transitioning or sustaining a balanced lifestyle. The Foundation is dedicated to supporting veterans by inspiring life-long connections, participation in wholesome activities, fostering and utilizing holistic platforms to combat the effects of PTSD, CTE, TBI, educating the public about the impact of these conditions, and promoting camaraderie. Other Foundation activities include accountability meetings, outdoor events, and providing long-term support for job training and career building within the motion picture, television, and entertainment industries.

Sabot Racing, an affiliated company, is a full-time off-road racing team which participates in desert racing in Nevada and Baja, Mexico on the SCORE International circuit. During the past two years, Sabot Racing has promoted its efforts internationally by participating in the famed Gumball 3000 Rally Race; driving from London to Japan in July 2018, and from Mykonos to Ibiza in June 2019. Sabot Racing procures vehicle related sponsorships to promote and engage in additional opportunities for active involvement in racing in order to advance Sabot's mission.

Sabot Group continues to work alongside partners with similar goals to assist veterans with constructive transition in the community. Along with our partners, we believe that "No Soldier, Veteran, or Warrior will be left behind," amplifying our mission to promote awareness and create actionable progress for veterans. Creating a lifestyle brand surrounding motorsports is a strategic goal for Sabot Group, involving artists, musicians and public figures who are dedicated in support of our mission. Sabot Group is a leader in effective social change. With a business focus, we provide resources to veterans that directly aid in their well-being. In addition to several Sabot Group partners who donate products to Sabot Foundation, the net proceeds of Sabot Group's unique apparel and special edition merchandise also support the endeavors of the Foundation.

Working Together For Veterans

A CLEAR AND PRESENT DANGER

PTSD (post-traumatic stress disorder) is a mental health problem that some people develop after experiencing or witnessing a life-threatening event like combat, a natural disaster, a car accident, or being the victim of a crime.

As an active or reserve member of the military, one may see combat. The United States has been involved in the longest war in its existence - 16 years - with an all-volunteer force, no draft or conscription. Many have been on missions that have exposed them to horrible and life-threatening experiences.

The number of veterans with PTSD varies by service era:

- Operations Iraqi Freedom (OIF) and Enduring Freedom (OEF): About 11-20 out of every 100 Veterans (or between 11-20%) who served in OIF or OEF have PTSD in any given year.
- Gulf War (Desert Storm): About 12 out of every 100 Gulf War Veterans (or 12%) have PTSD in any given year.
- Vietnam War: About 15 out of every 100 Vietnam Veterans (or 15%) were diagnosed with PTSD at the time of the most recent study in the late 1980s, the National Vietnam Veterans Readjustment Study (NVVRS). It is estimated that about 30 out of every 100 (or 30%) of Vietnam Veterans have had PTSD during their lifetime.

Other factors in a combat setting can add more stress to an already stressful situation. These factors include what you do in the war, the politics around the war, where the war is fought, and the type of enemy you face. This may contribute to PTSD and other mental health problems. More than 35 veterans commit suicide every day. Many of these are attributed to PTSD.

Sources: www.va.gov

The highest rate of veteran suicide falls on those aged 19–29. In terms of raw numbers, it's the Vietnam Veterans' generation who are dying in droves. But the biggest takeaway from the report is that 14 out of the 20 veterans who die each day aren't enrolled at the VA. The increase in suicide rates for veterans outside the VA healthcare system has grown almost five times faster than those getting care at VA. Foundations like ours serve as effective alternatives for assistance with non-medical transitions by building and fostering purpose.

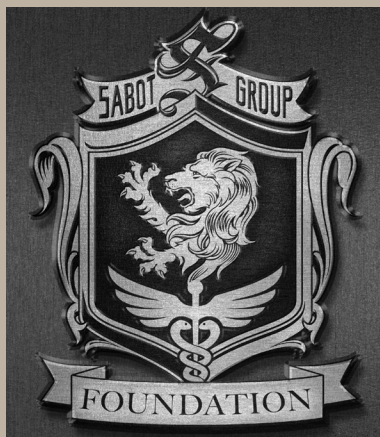

FINANCIAL CONTRIBUTIONS APRIL 2018 - MARCH 2019

Sabot Foundation, a 501(c)(3) Charitable Trust, has spent over \$400,000 in the past 12 months to support the needs of veterans, including:

- Financial Assistance
- Medical Expenses
- Funeral Expenses
- Education Expenses
- Legal Expenses
- Therapy Treatment and Holistic Products
- Travel, Trips, and Activities
- Blankets, Backpacks, and Toiletries for the Homeless
- Donations

BUILDING & FOSTERING PURPOSE

Sabot has participated in several off-road (primarily desert) racing events in the past two years, and our crew included several combat veterans and injured combat veterans who participated in driving, pit crews, maintenance, and support in these various events:

SCORE (Southern California Off Road Enthusiasts) International Off-Road Racing has been sanctioning off-road races since 1967, held in Mexico's Baja California Peninsula.

SCORE: SAN FELIPE 250

The SCORE San Felipe 250 is a desert off-road race that takes place each year in early April near San Felipe, Mexico and was first held in 1982. The 33rd Annual 2019 San Felipe 250 was a grueling 350 mile loop race and Sabot Racing took first in their class.

SCORE: BAJA 500

The SCORE Baja 500 is a loop off-road race starting and finishing in Ensenada, Mexico. The race course mileage varies from year to year and is usually slightly under 500 miles. The Baja 500 is celebrating its 51st Anniversary in June 2019.

SCORE: BAJA 400

The SCORE BAJA 400 (previously named the Tijuana Desert Challenge) held in September each year is a single loop off-road race starting and finishing in Tijuana, Mexico.

SCORE: BAJA 1000

The SCORE Baja 1000 is a desert off-road race which is held in November and traditionally a loop race, but in 2017 on its 50th Anniversary, it was a point-to-point race starting in Ensenada and ending in La Paz totaling 1,134 miles. There were over 400 entries from 44 U.S. States and 27 countries participating. The Baja 1000 is the final round of a four-race series.

The Best In The Desert (BITD) Racing Association is an American desert off-road racing association. It is operated by Casey Folks, and it is based out of Las Vegas, Nevada.

BEST IN THE DESERT: MINT 400

Known as "The Greatest Off-Road Race in America," The Mint 400 is an epic four-hundred-mile battle between the top off-road racers in the world in over twenty different classes of off-road vehicles. The race was started in 1967 and is steeped in American lore, as thousands of racers, as well as celebrities from around the world, have attempted to tame the harsh Nevada desert. An entire week of events lead up the famed off-road race in and around Las Vegas, including a vehicle parade, drivers meet and greet, pit crew contest, crowning of Miss Mint, multiple parties, qualifying, and contingency/vehicle tech inspection.

BEST IN THE DESERT: VEGAS TO RENO 600

The Vegas To Reno 600 debuted in 1996 and is the longest off-road race in the United States, featuring a point-to-point course starting in Southern Nevada and finishing in Northern Nevada. Racers from 25 States in the U.S., as well as Argentina, Australia, Brazil, Canada, France, Germany, Ireland, Mexico, South Africa, and Uruguay, compete in this grueling race each year.

NORRA MEXICAN 1000

The NORRA Mexican 1000 is a unique, five-day on and off-road vintage-flavored rally that takes place during the last week in April through Mexico's Baja California Peninsula that starts in Ensenada and ends in San Jose del Cabo, Mexico.

GUMBALL 3000

In June 2019, Sabot will be participating in this rally from Mykonos to Ibiza. Last year Hammond Meredith participated in the race from London to Tokyo. Started in 1999, the Gumball 3000 Rally is an annual luxury automotive road trip taking place every year and traveling a different 3000-mile route. Drive through capital cities in front of hundreds of thousands of fans and photographers as Gumball shuts down famous landmarks in each town where spectacular static car displays are hosted and documented by the world's press.

EDUCATIONAL & JOB/CAREER PATH PLATFORM

You've served us, now let us serve you! We know what veterans have personally sacrificed for our country's independence and collective success. And we have taken steps to bridge with an accredited program with resources and support to help with post-service success. The motion picture and television industry offer well paid, long term jobs within the production and support services. We have formed a partnership with an accredited Hollywood school to provide a training program with direct exposure to the media industry and a pathway to union membership to several or under-represented prospective veterans, and dependents whose parent has not returned from combat operations due to death or are inherently disabled due to combat or service operations. Students in the program engage in a training curriculum that offers hands-on work experience in a career leading to working within film and television crews tasked with the production of television, motion picture, and other entertainment projects. Fellows have the chance to work in a business related to the motion picture studios and television networks' portfolio of properties. Sabot's role is not only to assist with enrollment but also offer scholarships and a variety of financial assistance to those actively engaged in the program.

SUPPORTING VETERANS & COMBAT VETERANS IN NEED

Sabot Foundation is a 501(c)(3) charitable trust whose sole mission is to provide support to this country's veterans and combat veterans as they face many challenges encountered during their rehabilitation, reintegration and healing process through participation in wholesome activities fostering fun, teamwork, and camaraderie.

DENTISTS ORGANIZED FOR VETERANS (The DOV Project)

The mission of Dentists Organized For Veterans is to enhance lives by providing free, on-going, high-quality dental services in the first private, stand-alone, full-service dental clinic in the United States wholly devoted to veterans who do not qualify for dental services from the Veterans Administration and who cannot afford dental care. DOV has contributed over \$35,000 in free dental services for two veterans we have sent to their organization in Tracy, CA.

LIL BRAVEST

The Lil' Bravest was started by a group of Firefighters from FDNY Engine 84 and Ladder 34, located in the Washington Heights section of Manhattan. They started the Lil' Bravest in honor of two of their "Brothers" they lost in 2010. On October 17th, 2010, Rory O'Flaherty, who served two tours in Iraq with the U.S. Army, passed away at the age of 31. Two months later they lost their mentor and "senior man" of the firehouse John "Sully" Sullivan. John was a 27-year veteran of Ladder 34 and died on Christmas Eve, 2010 of cancer as a result of his rescue and recovery efforts following September 11th. The Lil' Bravest Inc. was founded to improve the quality of life for children who are hospitalized or being treated for childhood diseases. The goal is to put a smile on the faces of kids who are going through a tough time. These kids are the true heroes, and the funds raised go directly to improving their quality of life.

SABOT RACING X VETERANS

Sabot Racing is a Desert UTV, Trophy Truck and Drift Racing Team that invites veterans to motorsport and wilderness excursions such as hunting, fishing, camping, off-roading and even as working members of the Racing pit crew.

HOMELESS VETERANS

Sabot Foundation has participated in two programs to supply care bags to the hard-hit Stockton area. The number of homeless throughout Stockton has never been more prevalent. Shelters are overflowing. Big encampments persist. Small groups of homeless linger aimlessly along many city streets. According to Cal Vets, approximately 25% of homeless veterans were located in California: the highest percentage of any other state. Sabot Foundation has participated in two programs to supply Hygienic Care Bags, the necessary items and resources to assist with individualized supportive services.

FOUNDATIONS CONTRIBUTED TO

- Battlefield Foundation

THANK YOU

RHYS MILLEN RACING

Rhys-millen-racing.myshopify.com

Rhys Millen, born in New Zealand in 1972 is the son of famed rally and off-road racer, Rod Millen. Rhys joined Rod in the US as a teenager and founded Rhys Millen Racing at the age of 21. RMR (Rhys Millen Racing) is an automotive tuning and parts shop these days concentrating on the rally, drift, and movie car preparation.

ESTEVAN ORIOL

Estevan Oriol is an internationally celebrated professional photographer, director, and urban lifestyle entrepreneur. Beginning his career as a hip-hop club bouncer turned tour manager for popular Los Angeles-based rap groups Cypress Hill and House of Pain, Estevan's passion for photography developed while traveling the world. With an influential nudge and an old camera from his father, renowned photographer Eriberto Oriol, Estevan began documenting life on the road and established a name for himself amid the emerging hip-hop scene.

ARIZONA CHIROPRACTIC NEUROLOGY CENTER

azchironeuro.com

Arizona Chiropractic Neurology Center - Arizona's leading chiropractic center for Functional Neurology and Functional Medicine. The doctors at ACNC have a comprehensive understanding of the central nervous system, neurochemistry, and biomechanics. This also includes Neurological Rehabilitation, Metabolic Rehabilitation, and Structural and Soft Tissue Rehabilitation.

LIL BRAVEST

<http://lilbravest.com>

The Lil' Bravest Inc. was founded to improve the quality of life for children who are hospitalized or being treated for childhood diseases. The goal is to make a difference for kids who are going through a challenging time. These kids are the true heroes, and the funds raised go directly to improving their quality of life.

THE RAVEN AND THE WOLVES

A collection of artists and tattoo artists who are supporters of Sabot.

HANKOOK TIRES

Hankook is a global corporation that has consistently met the challenges of the future, always a step ahead of changes in the world economy.

MISTER CARTOON

Born and raised in Los Angeles, Mister Cartoon was immersed in art from an early age. He began his career as a graffiti artist before branching into murals, album covers, logos, and now most famously known for his tattoos. His richly detailed, hand-rendered designs pull much of their inspiration from the Los Angeles of Cartoon's youth. Service to the community has been an essential part of Cartoon's career. He takes place in monthly outreach programs where he shares his knowledge with young people and devotes time to many other community-based initiatives.

BORN CBD

Borncbd.com

With the Born Veterans Program, we are offering U.S. military veterans 20% off retail price. Please tell us a little more about you, and a Born CBD team member will reach out to you within 24-48 hours. We sincerely thank you for your service!

BROTHERS IN ARMS FOUNDATION

brothersinarmsfoundation.org

Brothers In Arms Foundation is a 501 (c)(3) tax-exempt Service Disabled Veteran Operated State of Florida Nonprofit Organization. Our mission is to provide financial and logistical support to immediate family members of Marines & FMF Corpsman who have been critically wounded, or fallen while serving within the Special Operations Community of The United States Marine Corps.

DENTISTS ORGANIZED FOR VETERANS (DOV)

dovproject.org

The DOV Project is a non-profit, 501(c)3, dental clinic whose patient base are all veterans of any branch who do not qualify for dental services from the VA and are not in a financial position to pay for on-going dental treatment. DOV has donated close to \$35,000 in dental care to veterans in need on behalf of Sabot Foundation.

PAPA AND BARKLEY

papaandbarkley.com

Today, we are a proud team of caregivers, scientists, and professionals on a mission to unlock the power of cannabis to improve people's lives. We make products for our family and yours.

MAJOR CAPERS, THE LEGEND OF TEAM BROADMIND

capersthe.doc.com

An honest and unflinching documentary that portrays the extraordinary life of Major James Capers Jr., an American hero.

VETERANS TRANSITION RESOURCE CENTER

Veterans Care Foundation is a 501(c)(3) non-profit organization. We have evolved from helping veterans and troops returning from war to assisting a large percentage who have not gone to war or seen combat.

9/11 MEMORIAL

911memorial.org

The National September 11 Memorial is a tribute of remembrance and honor to the 2,977 people killed in the terror attacks of September 11, 2001, at the World Trade Center site, near Shanksville, Pa., and at the Pentagon, as well as the six people killed in the World Trade Center bombing in February 1993.

THE GREEN BERET PROJECT

thegreenberetproject.org

Through the application of a force multiplication model, a collaborative framework, and evidence-based change strategies; the Green Beret Project is empowering kids, cops, and communities to win the fight on the front lines of our inner cities.

Our mission is to empower and employ veterans through fashion. We are committed to bring awareness to veteran PTSD and help end veteran suicide.

VETERANS OF FOREIGN WARS - STOCKTON

CALIFORNIA VIETNAM VETERANS MEMORIAL

capitolmuseum.ca.gov/the-museum/vietnam-memorial

"Take what they have left and what they have taught you with their dying and keep it your own. And in that time when men decide and feel safe to call the war insane, take one moment to embrace those gentle heroes you left behind."

U.S. Army Major Michael O'Donnell

Major O'Donnell wrote these moving lines while serving in Vietnam. His thoughts express the deep feelings embodied in the Vietnam Veterans Memorial, a tribute to the 350,000 Californians who served in Vietnam.

BRIAN BILL FOUNDATION

brianbillfoundation.org

The Brian Bill Foundation offers the latest therapeutic techniques for warriors suffering from combat post-traumatic stress, mild traumatic brain injury and chronic pain in a unique 4-day format that unites eight active and/or former special operators with professional counselors, utilizing the latest methods and therapies. This team-centric approach, made up of those who share common backgrounds and experience, is a key to the success of the program, as is the fact that participation is confidential.

WHITE HEART FOUNDATION

whiteheart.org

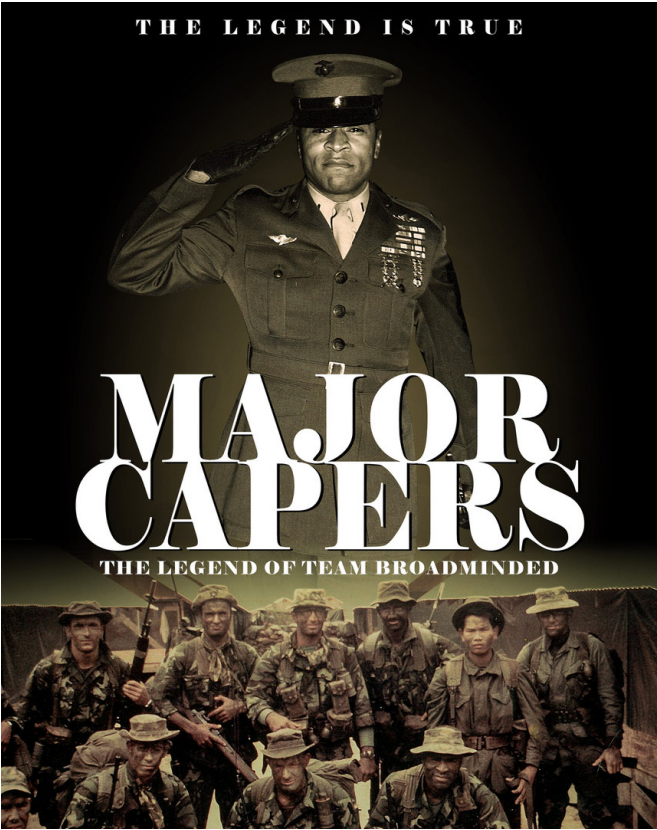

One Life (White Heart Foundation Program) provides medical care from world-class doctors, free of cost, to our network of injured warriors. This program links wounded veterans, who have not received proper care through government means, to premium doctors who are willing to provide their time and expertise. One Life supports veterans in ways that the VA cannot.

ERCHONIA - World Leader In Laser Technology

erchonia.com

Scientific and clinical research has transformed Erchonia into a world leader in the field of LLLT technology which we advocate in our holistic treatment programs.
